Shimano 105 STI's 10speed

Price: £168.59

1 pair of OE 105 STI Shifters.

Ergonomic innovation is probably more critical to the higher standard of the new 10-speed S.T.I. levers than the added gearing. The narrower cradle-style perch welcomes the high-on-the-hood riding style and accommodates all sizes of hands. The shift internals borrow the robustness from our MTB technology which results in a smooth and effortless shift.

Features

- Ergonomic design : Refined lever hood for improved ergonomics.
- Robust internal mechanism
- Front double/triple compatible design
- Effortless shifting : Shift effort is reduced on the release lever.
- Short stroke shifting : Inward shift stroke distance is reduced by 10mm.
- 10-speed compatible
- FLIGHT DECK cycle computer compatible
- SIS-SP41 cable housing : The cable housing with silicon grease reduced friction by 10%.

Specifications
