Continental Speedking Folding

Price: £19.99

	Quantity	Price
	0 - 1	£19.99

The 35mm Speed King Cross was developed for cyclo-cross races and general cross-country use. Lugs extending far into the shoulder make it possible to cross steep slopes, even if the ground is soft. Its centre tread self cleans well and the big volume casing is designed for inflation pressures of 3 up to 6 bar.

- **Heading cross-country this winter!**
- **A new cyclo-x tread pattern with folding bead**
- **Tall shoulder lugs for good off camber grip**
- **Shallower centre tread gives a fast ride**
