## American Classic Hurricane

**Price: £439.00**

**March Special Offer : free pair of Schwalbe blizzard training tyres and tubes with each wheelset.**

*The Hurricane wheelset is a high performance clincher wheel for the large and powerful road rider. A perfect choice for racing, training, or cyclocross, Hurricane wheels create a balance between strength, weight, responsiveness, and durability.*

*The rims are tough enough to handle mud, rough roads and cobblestones. Bill Shook used his design skills and geometry to make the Hurricane semi-aero rims strong and light with a rim profile of 22mm wide x 24mm deep. These wheels are comfortable for long rides and loaded trekking. They are the wheel of choice for Sprinters and Clydesdale riders.*

*Hurricane 400 gr Aluminum Rims 700c
