Giang Mars Evo 12-28 10spd

Price: £35.75

GIANG MARS latest cassette model is introduced in conjunction with the recently launched 10 speed system. Compatible with 9/10 Speed Cassette Hubs, this 10 speed cassette spacing is identical and completely compatible with the entire 10 speed shimano system.

All manufacturing processes are done in-house and we have implemented stringent quality control measures. 10 speed cassette is available in either complete steel for GNF model or with 2 aluminium carriers for lighter weight version, GND model. Lastly, with a lasting nickel chrome finish, cyclists will certainly find this new cassette a product not to be missed.

This cassette has aluminium carrier , its ideal for cyclocross with the 28t largest sprocket. 291g.
